TORN

VOL I
A FEELING OF MEMORY

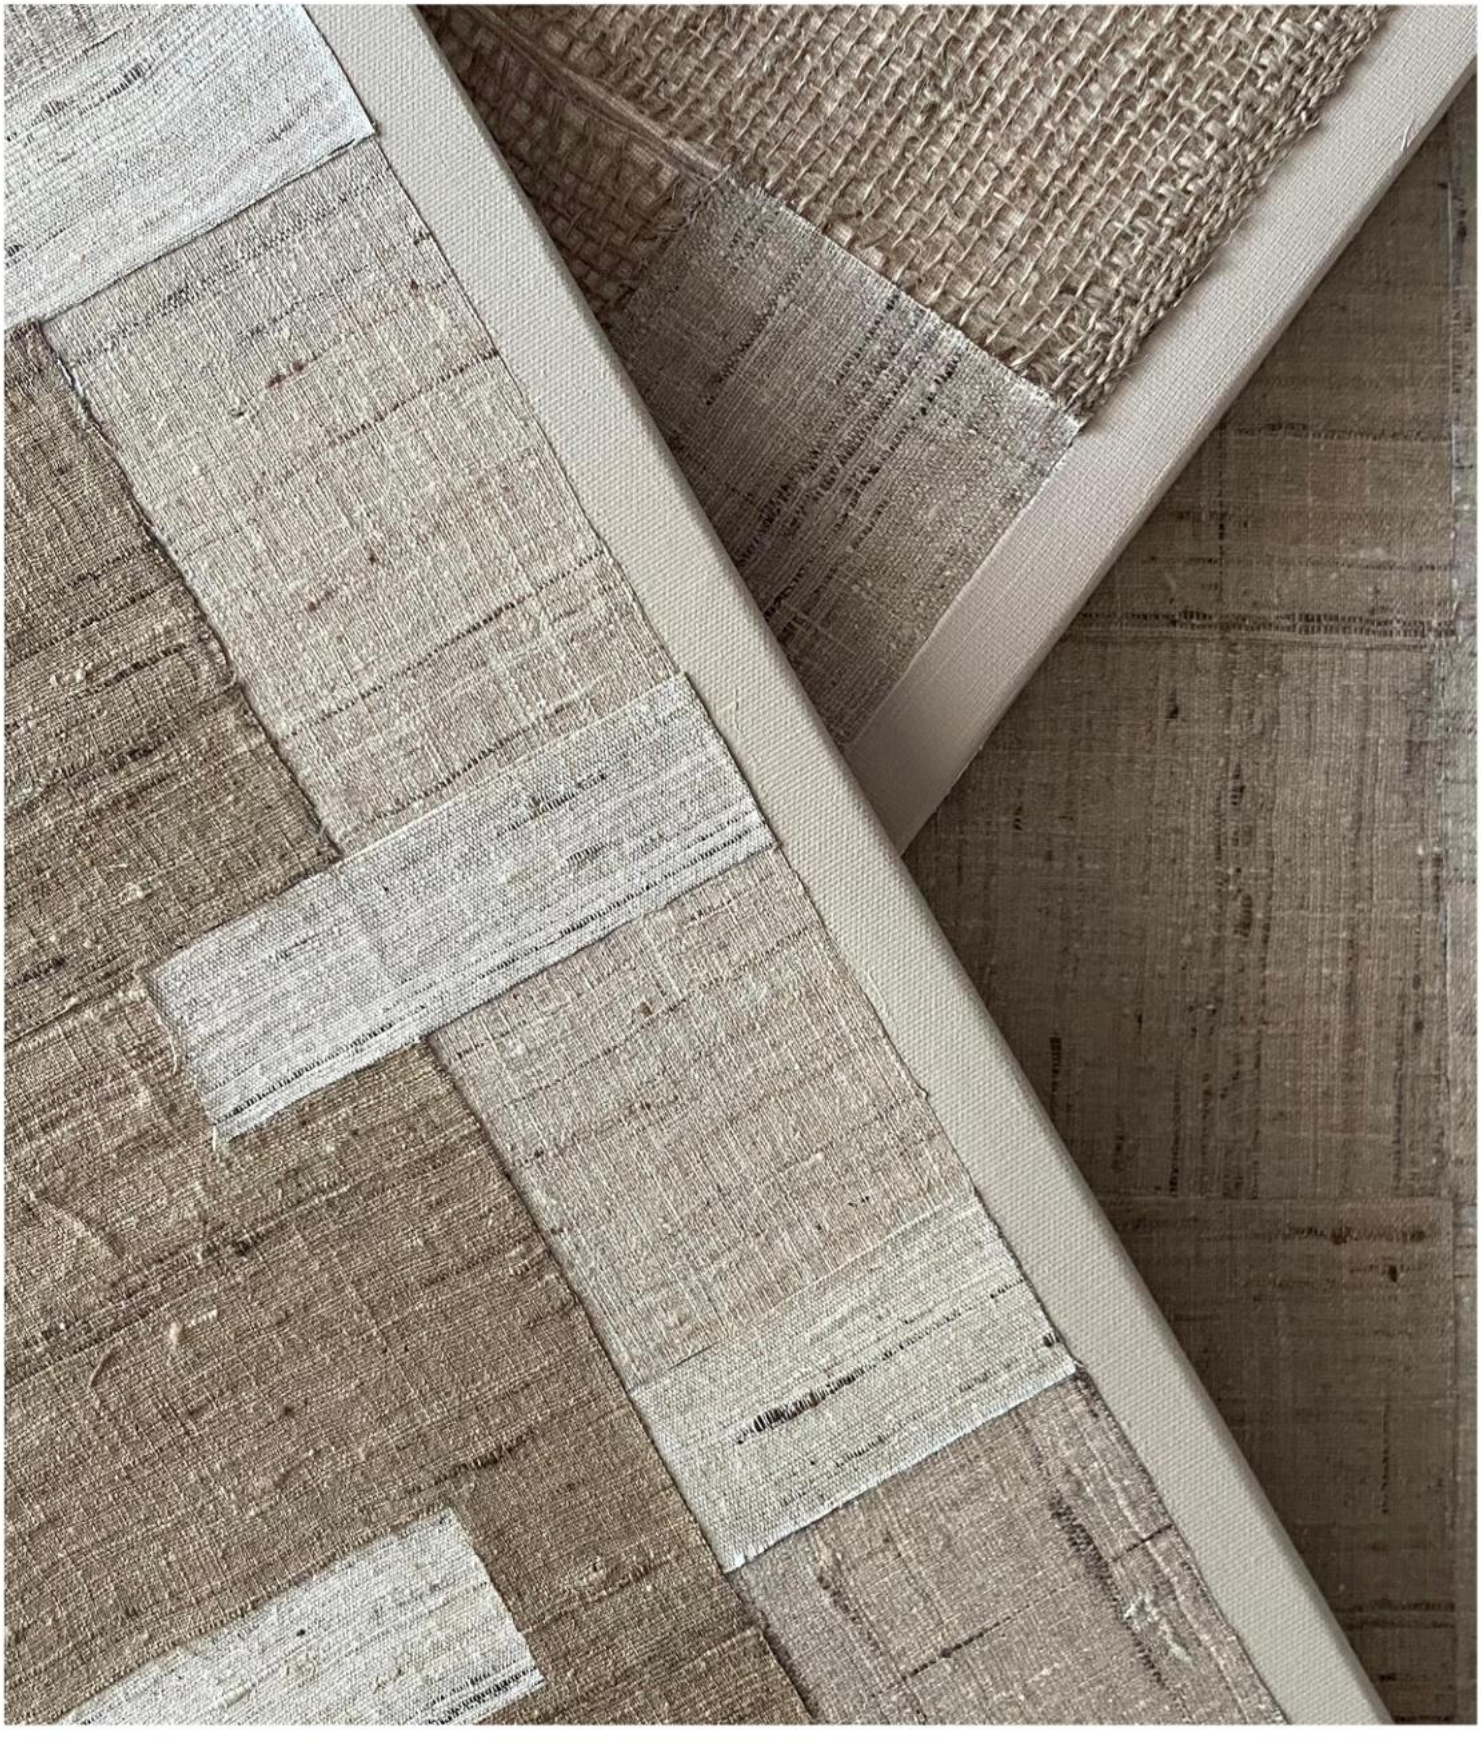

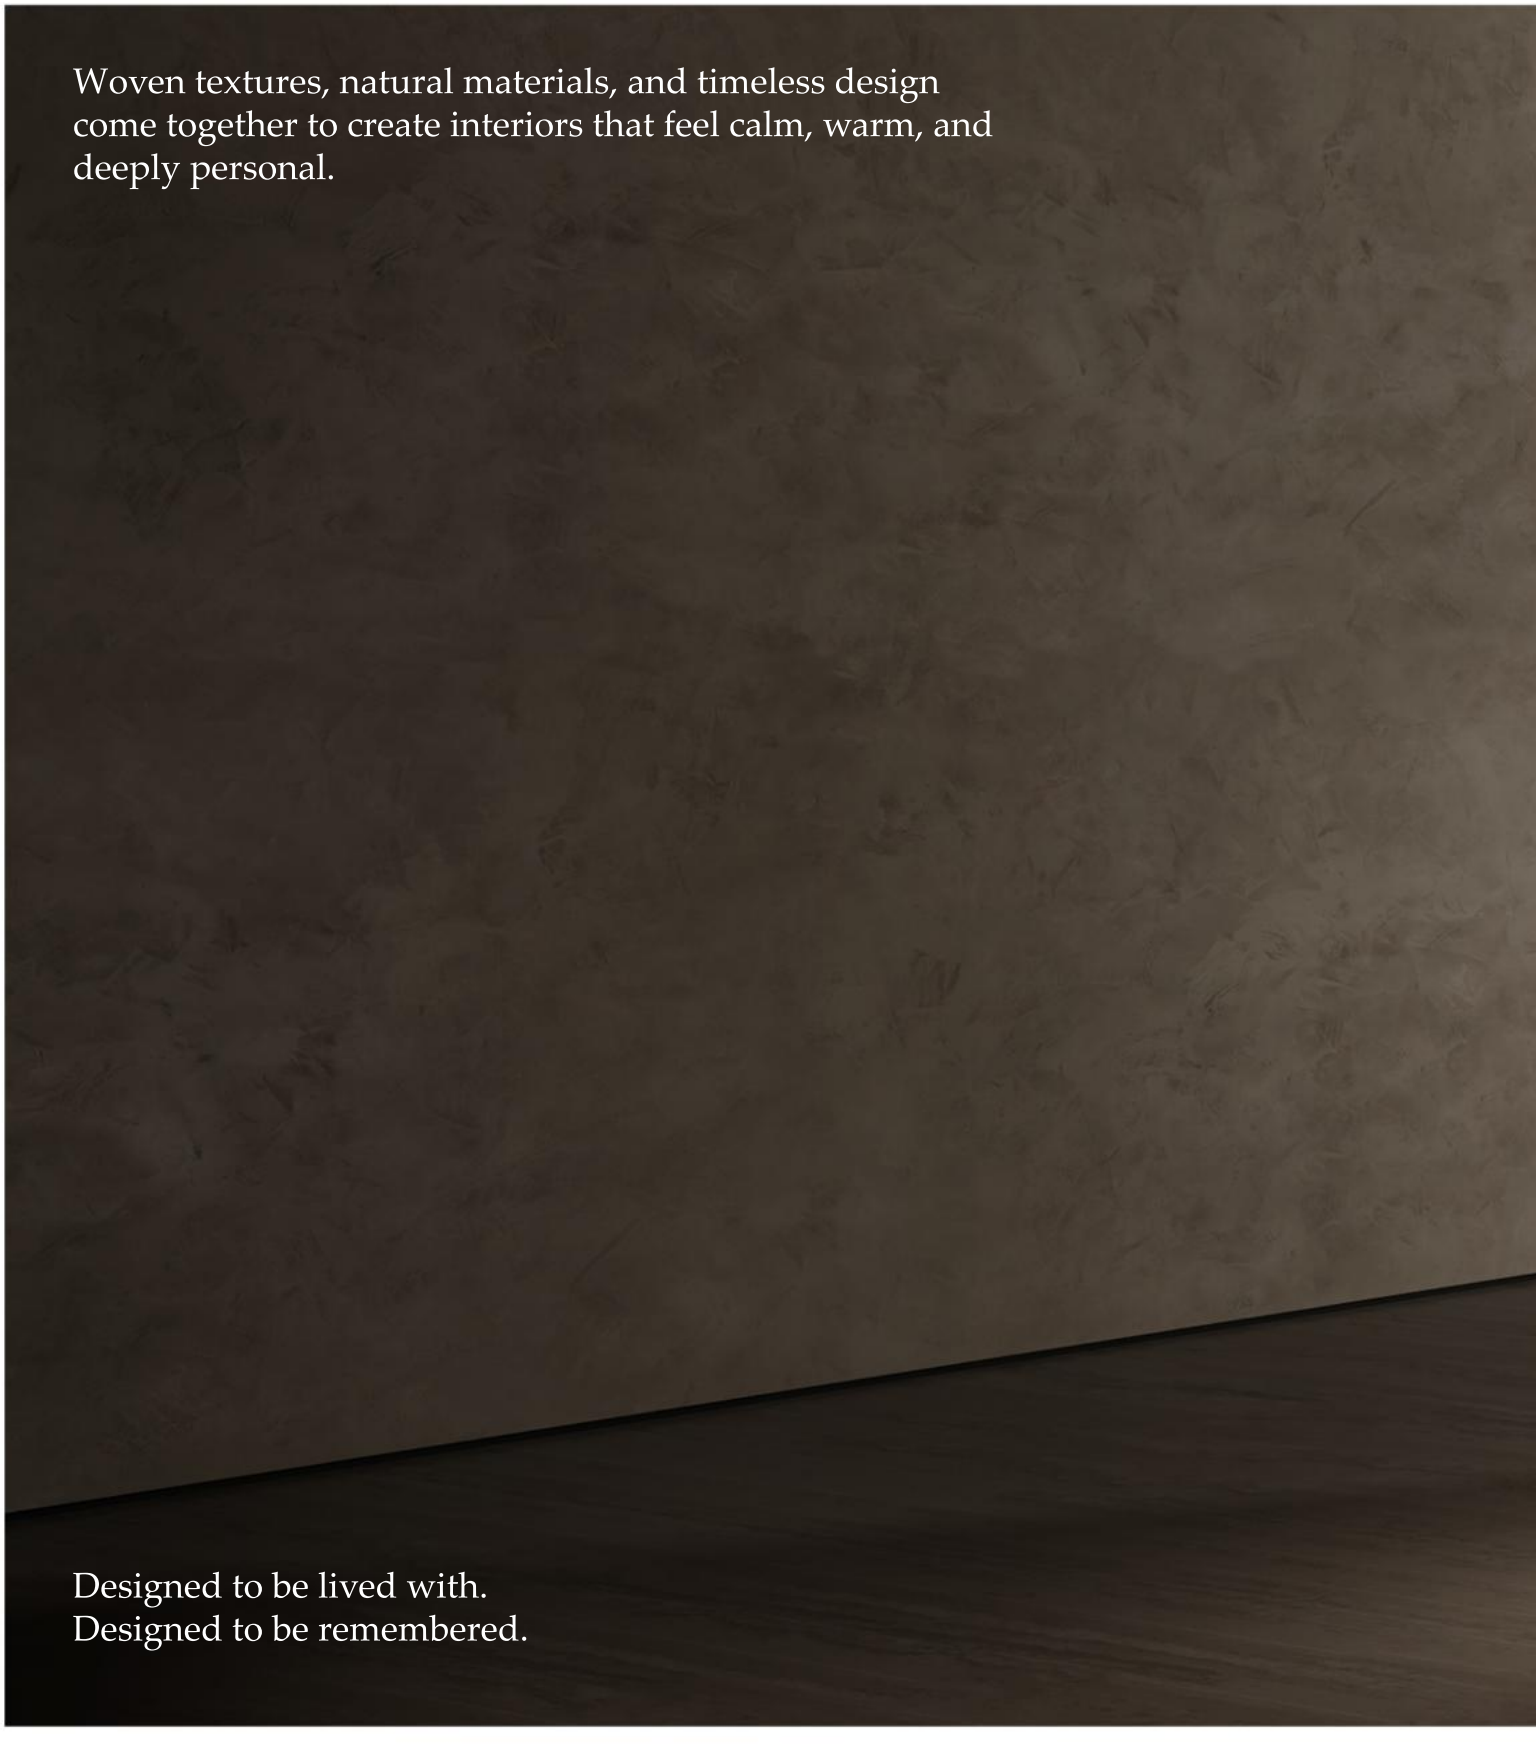

Torn is a dialogue between nature and memory, translated into texture, form, and light. Through handwoven materials and minimalist compositions, the collection brings a quiet Mediterranean elegance into contemporary interiors. Every piece is created to be felt as much as it is seen, transforming walls into objects of emotion, atmosphere, and timeless character.

Woven textures, natural materials, and timeless design come together to create interiors that feel calm, warm, and deeply personal.
Designed to be lived with.
Designed to be remembered.

Earth leaves its marks .
We simply preserve them

We believe every creation begins with a feeling.
Through natural textures, quiet forms, and handcrafted details,each Torn piece preserves the beauty of memory, transforming walls into stories and spaces into places that feel deeply personal.

We believe every creation begins with a feeling.
Through natural textures, quiet forms, and handcrafted details,each Torn piece preserves the beauty of memory, transforming walls into stories and spaces into places that feel deeply personal.

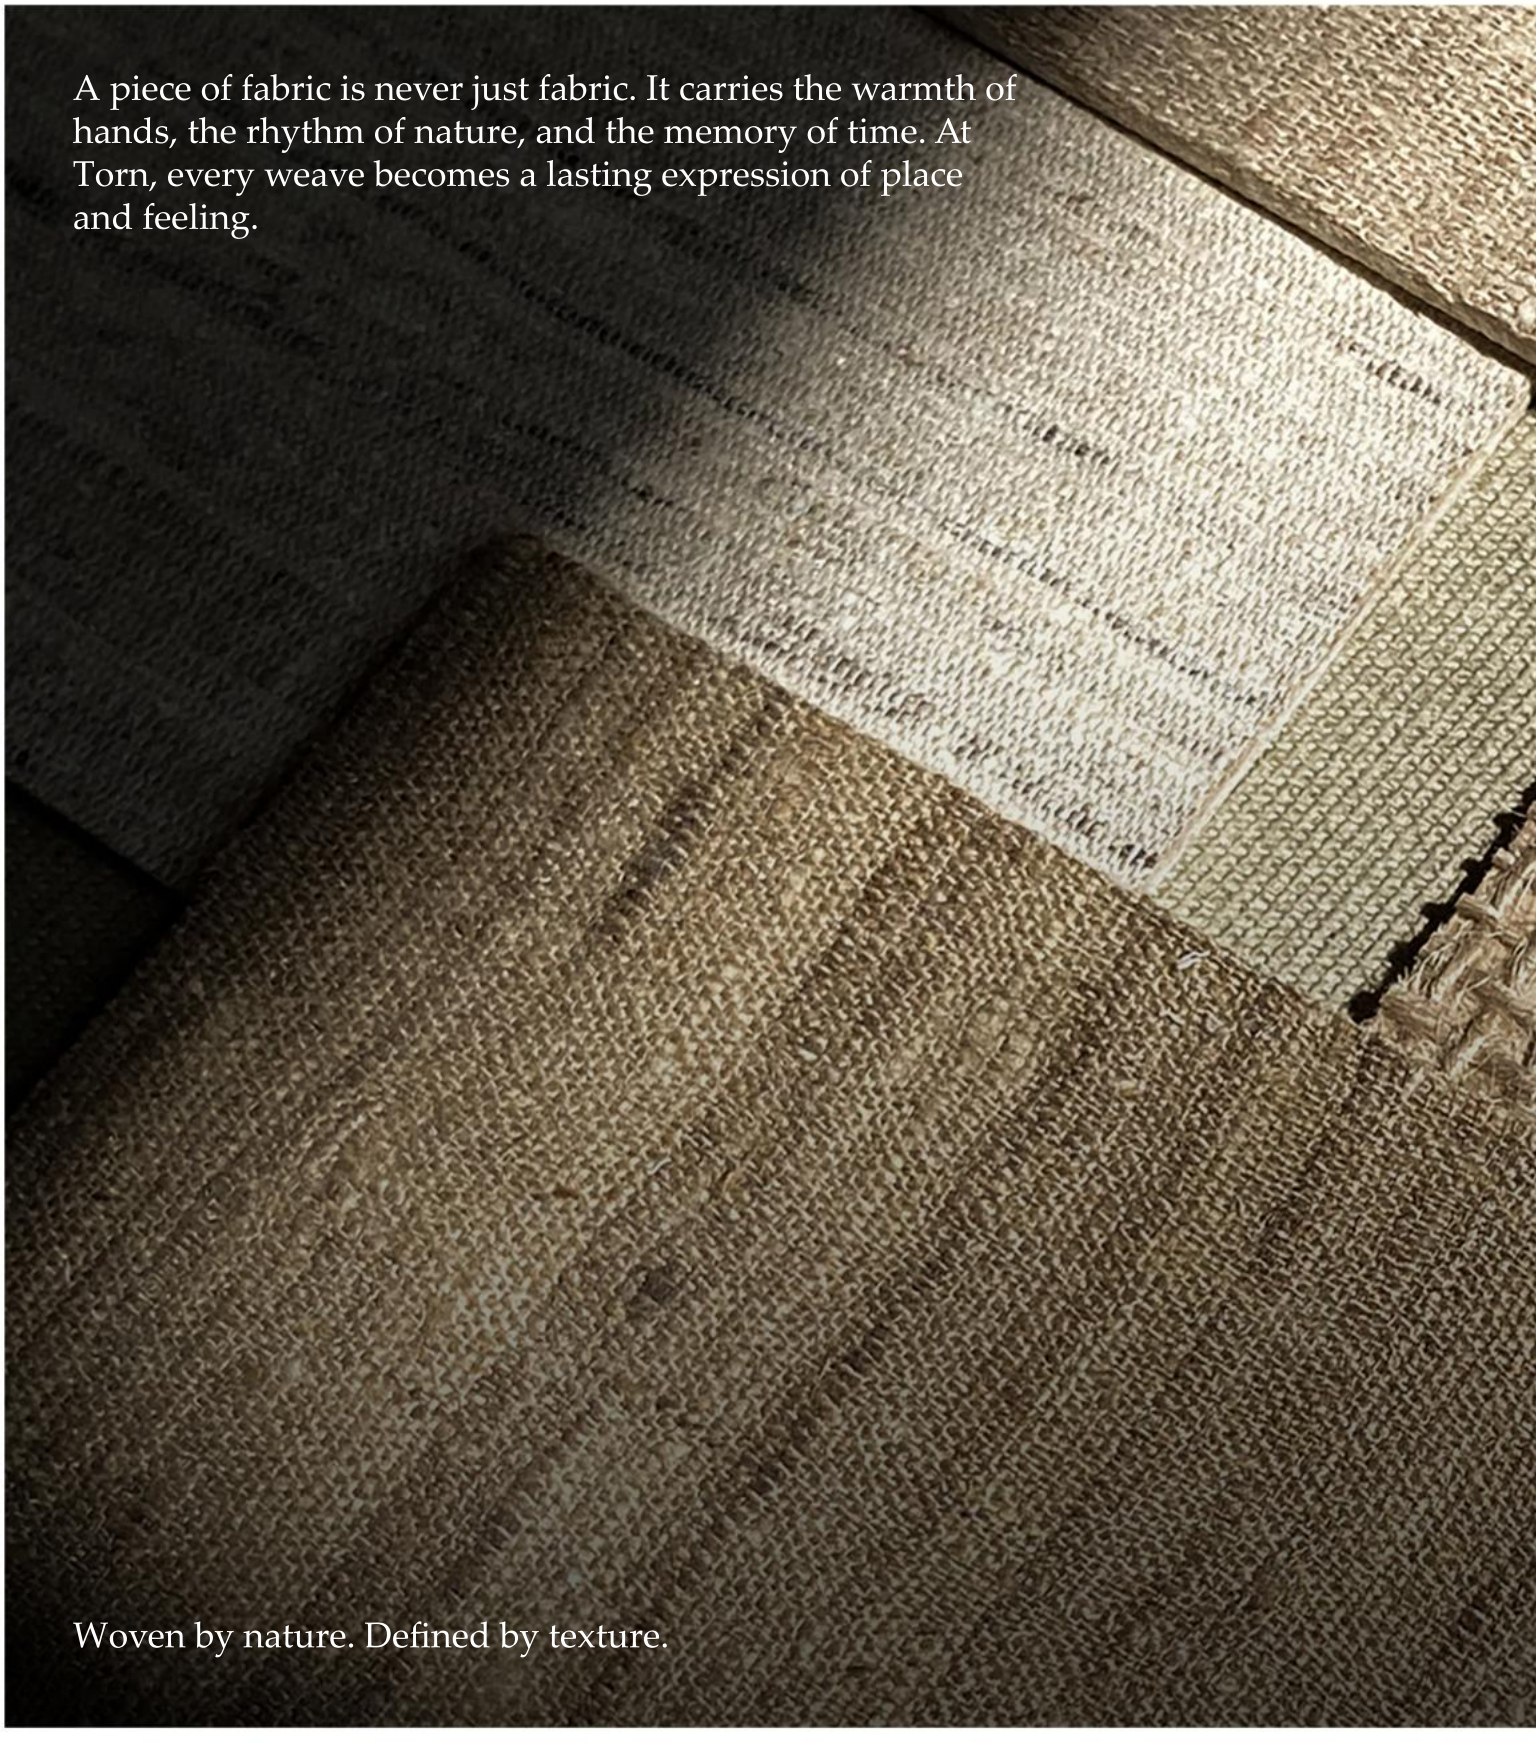

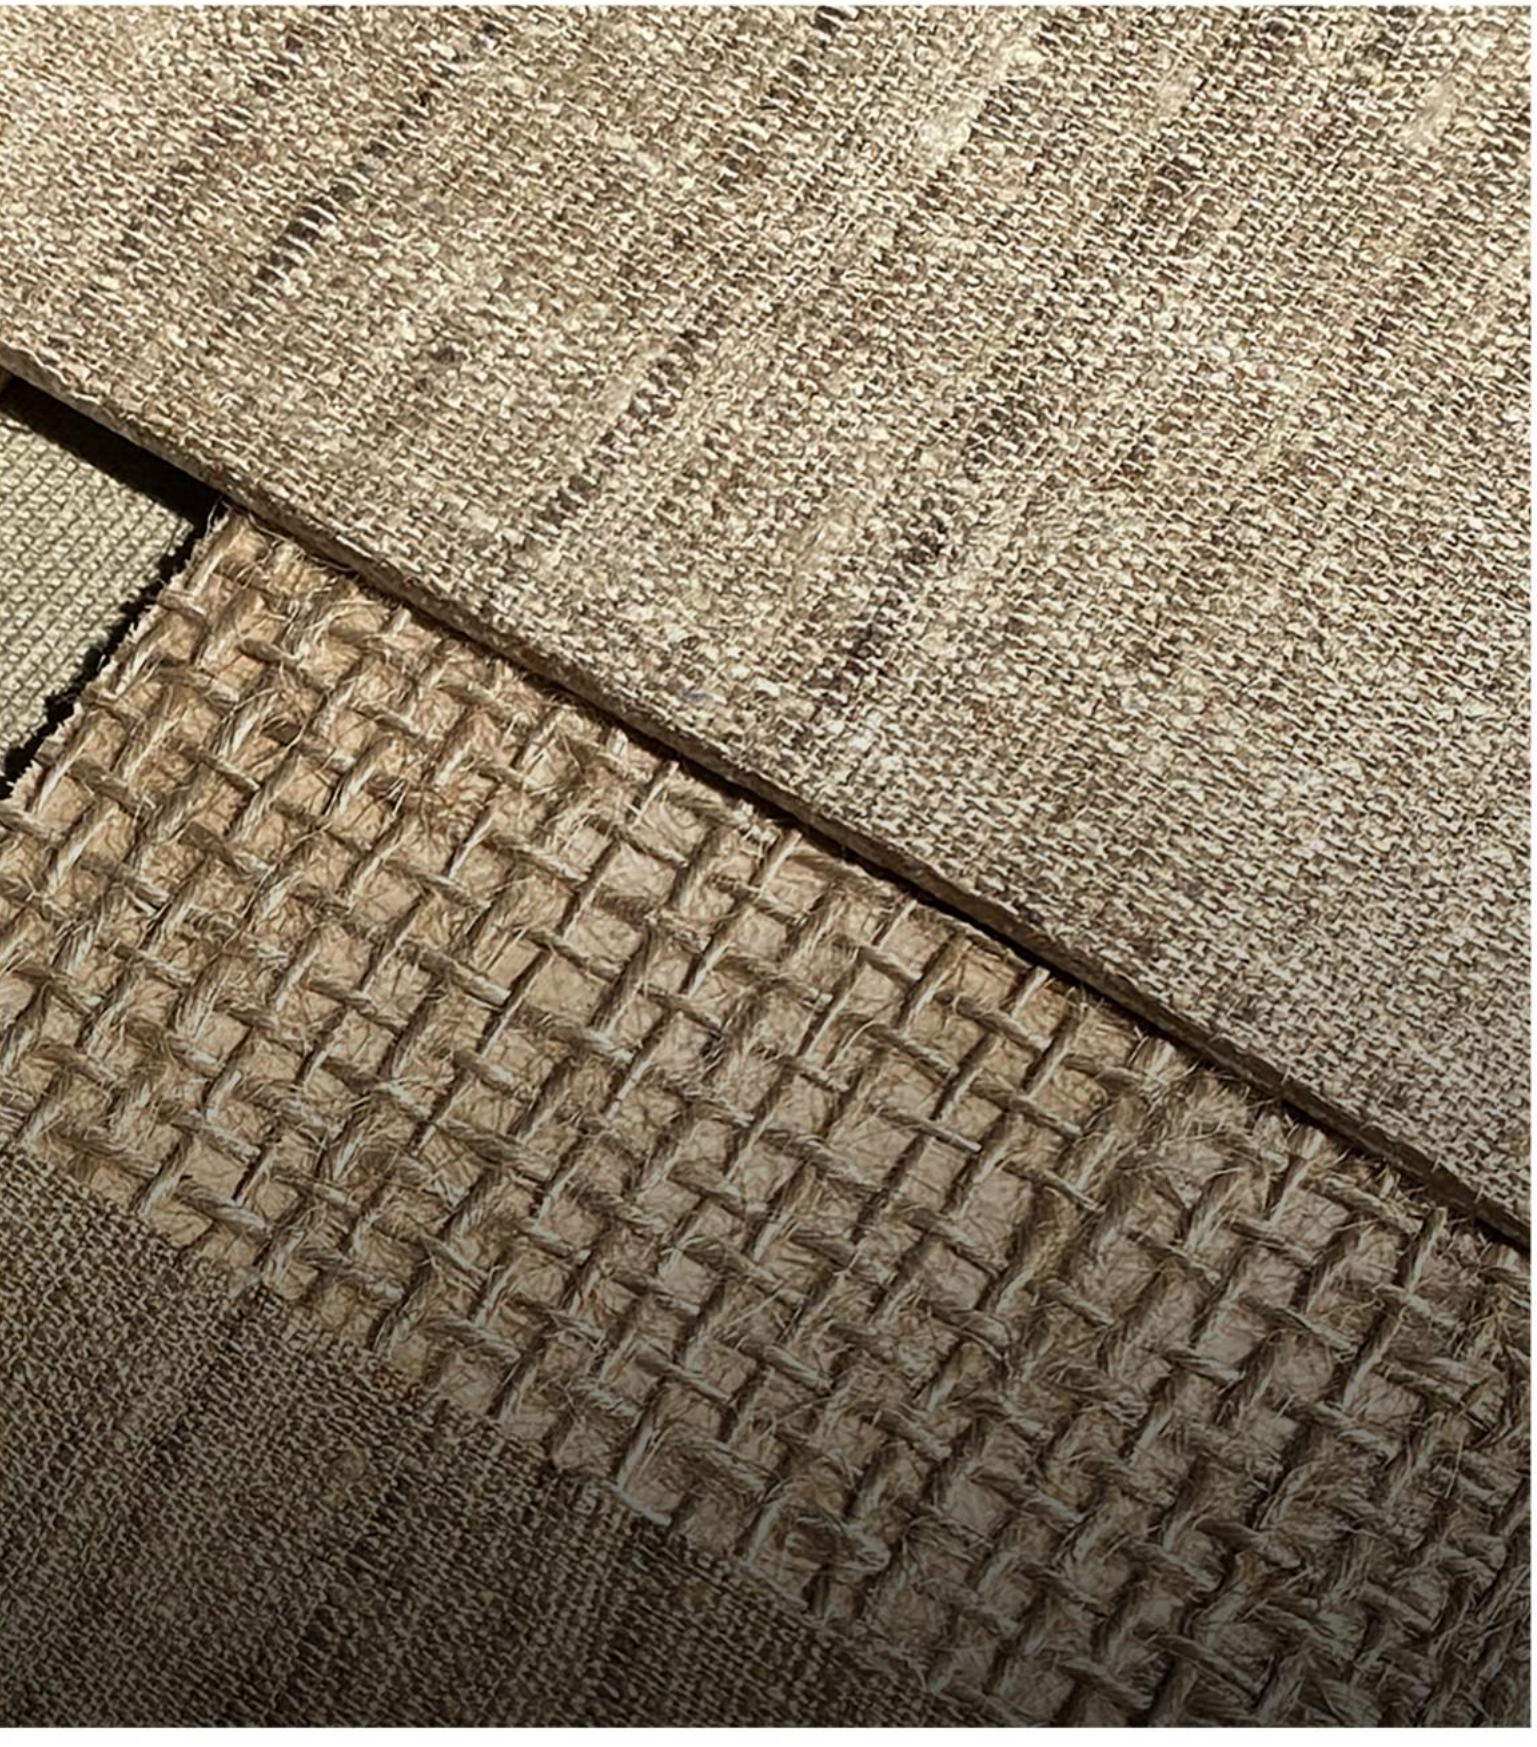

A piece of fabric is never just fabric. It carries the warmth of hands, the rhythm of nature, and the memory of time. At Torn, every weave becomes a lasting expression of place and feeling.
Woven by nature. Defined by texture.

Our design for the torn embodies precision and quiet sophistication, blending strength with subtlety to create a timeless piece that is crafted to endure, and designed to be remembered.

Every thread carries a story shaped by nature,
time, and the quiet beauty of craftsmanship.

Every fragment carries its own story, but only when they come together do they reveal a composition that speaks of balance, simplicity, and the enduring beauty of handcrafted design.

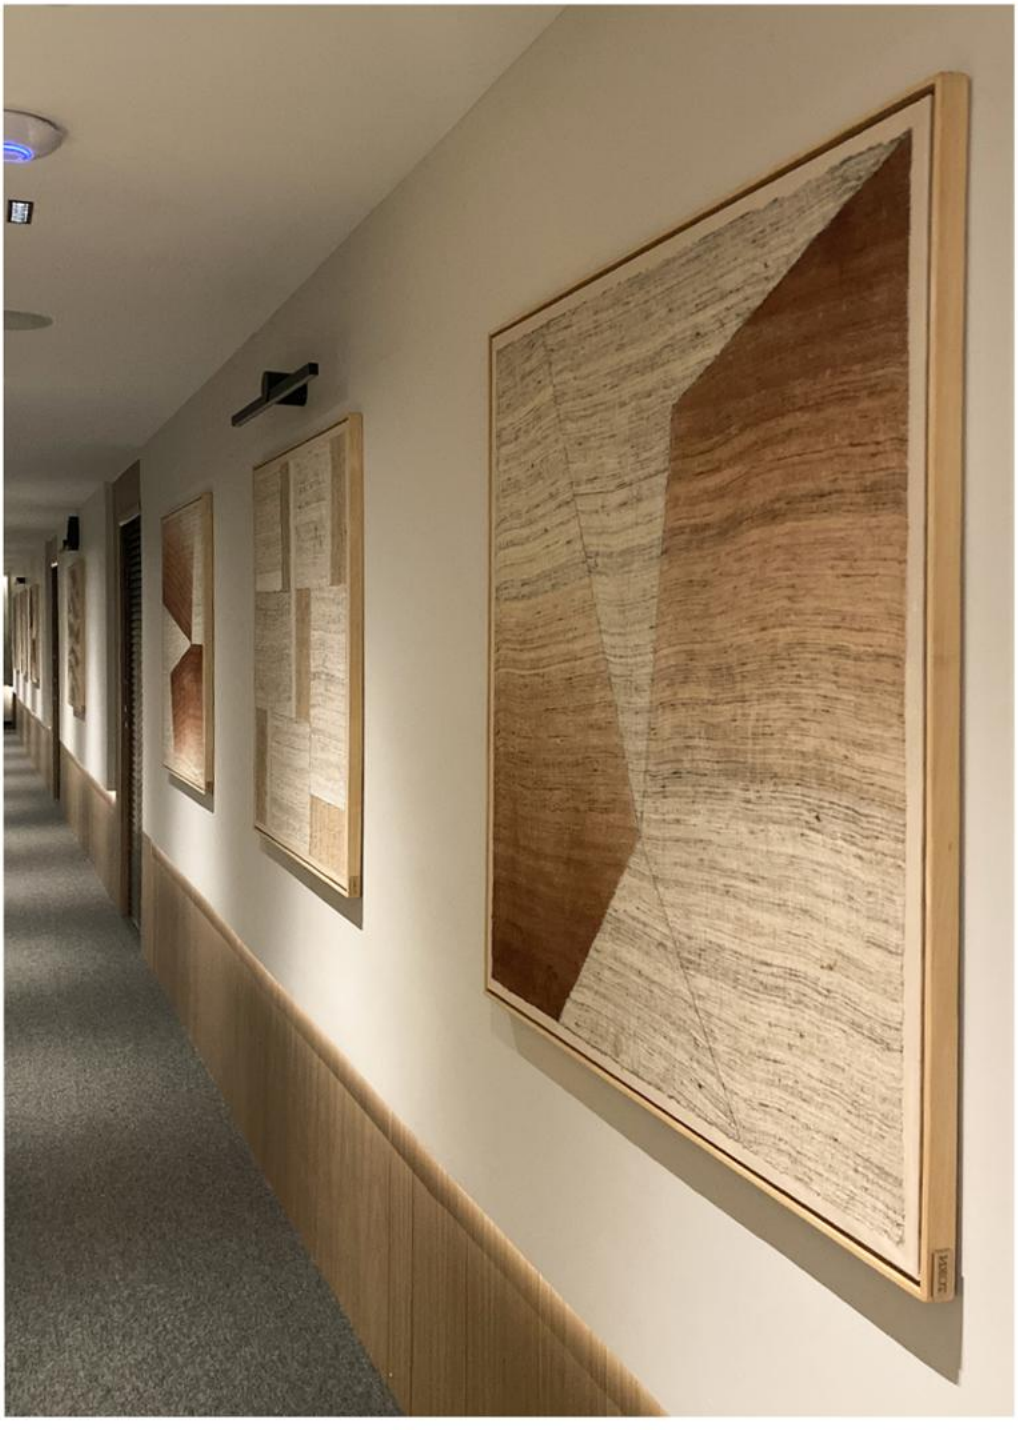

A carefully composed collection that transforms empty walls into meaningful spaces .
